NIHAL MV

MERN STACK DEVELOPER | REACT DEVELOPER

Kerala, India • +91 8590804939 • **nihalmv.dev@gmail.com**
LinkedIn • **GitHub** • **Portfolio**

PROFESSIONAL SUMMARY

Results-driven **MERN Stack Developer** with a solid foundation in Computer Applications (BCA) and practical experience engineering responsive, full-stack web applications. Skilled in designing scalable frontends with **React.js** and **Tailwind CSS**, coupled with robust server architectures using **Node.js**, **Express.js**, and **MongoDB**. Demonstrated expertise in RESTful API development, JWT authentication, and centralized state management across retail management, travel, and e-commerce platforms. Passionate about writing clean, maintainable code and building high-performance web experiences.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux Toolkit, Context API, React Router, Responsive Design

Backend & APIs: Node.js, Express.js, RESTful APIs, JWT (JSON Web Tokens), Middleware, CORS, MVC Architecture

Databases: MongoDB, Mongoose ODM, NoSQL Schema Design, Data Modeling

Tools & Deployment: Git, GitHub, Postman, Vite, npm, Vercel, VS Code

Core Competencies: Full-Stack Development, Single Page Applications (SPA), CRUD Operations, State Management

PROJECTS

SmartMart AI — Supermarket Management & Billing System | *React.js, Node.js, Express.js, MongoDB, REST APIs*

- Architected a full-stack supermarket operations platform featuring fast POS billing workflows, automated invoice generation, and real-time inventory management.
- Developed secure RESTful API endpoints using Express.js and Node.js for SKU/product search, real-time stock deductions, and billing record creation.
- Built a responsive billing interface featuring instant subtotal, tax, and discount computations, reducing average checkout processing time.
- Designed MongoDB schemas with Mongoose ODM to maintain data integrity across inventory catalogues, staff records, and transactional sales receipts.

GoTravel — Full-Stack Travel & Tourism Platform | *React.js, Node.js, Express.js, MongoDB, Tailwind CSS*

- Engineered a multi-tier travel web platform featuring a customer-facing portal for tour discovery alongside a dedicated, role-protected Admin Portal.
- Created travel package exploration modules with real-time search, destination tag filters, detailed itinerary views, and booking inquiry workflows.
- Implemented admin control portal enabling administrators to add/update tour packages, track customer inquiries, and update reservation statuses.
- Structured centralized state management and integrated RESTful APIs to deliver seamless data synchronization between client and admin modules.

TrachMart E-Commerce — TechNest Laptops & Mobiles | *React.js, Vite, JavaScript (ES6+), Tailwind CSS, Context API*

- Developed a high-performance, mobile-responsive electronics e-commerce store dedicated to laptops, smartphones, and computer accessories.
- Integrated dynamic product filtering by price, brand, and specifications, accompanied by an interactive shopping cart and checkout simulation.
- Utilized Vite for rapid bundling and optimized React component structures, achieving sub-second page loads and fluid navigation.
- Implemented reusable component architecture and custom hooks for clean API data fetching, error boundaries, and local storage persistence.

Skyline Mart — Supermarket Operations & Admin Dashboard | *React.js, Tailwind CSS, Recharts, REST APIs*

- Built an operational administrative dashboard providing real-time visibility into supermarket daily sales volume, revenue metrics, and inventory alerts.
- Integrated interactive data visualization widgets to track fast-moving products and highlight low-stock warnings for proactive replenishment.
- Designed an intuitive, modern user interface with responsive layout grids, clean theme accents, and efficient client-side state caching.

EDUCATION

Bachelor of Computer Applications (BCA) | *Safa Arts and Science College* | *University of Calicut, Kerala* **2023 – 2026**

- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Web Technologies, Software Engineering

PROFESSIONAL DEVELOPMENT & CERTIFICATIONS

- **Full-Stack MERN Development** — Comprehensive Project-Based Specialization
- **Modern React with Hooks & Redux** — Frontend Web Architecture
- **JavaScript Algorithms and Data Structures** — Problem Solving & ES6+ Mastery
